

**Word for Life Today deals with current spiritual and secular concerns as these are interrelated ... after all we are spiritual beings presently living in this secular world!**

**We're not trying to appeal to, or to appease the expectations of secular society. Our approach on any concern, issue or topic is with a Biblical Christian Worldview ... not from a "*RELIGIOUS* Christian" mindset.**

**Our overall focus is on discipleship, more specifically living as God's sons and daughters in everyday real life, that is, to be spiritually minded living in this secular world, not carnally minded trying to understand what is spiritual!**

**We share Biblical Christian messages intended to edify and encourage God's people; to help them grow in strength, wisdom and understanding as disciples of our Lord Jesus Christ ... again, who live real lives in this real world, the system of which opposes God and God's people.**
